appearing in the *Vallard Atlas*, it is from the 'Dieppe School' of French cartography. This group of map makers ...borrowed heavily on the work of other European nations especially the Portuguese. North is to the bottom. Some suggest that this landmass depicts the eastern coastline of Australia and was a result of the explorations made by Cristóvão de Mendonça. In 1521, King John III sent him to claim new lands for Portugal before Ferdinand Magellan could do the same for Spain. Hailed in 1856 as 'The First Map of Australia', it was seen as an affront to the achievements of Captain James Cook RN ...' Ref: Museum of Western Australia.

- (b) Stringy Bark Tree
- (c) Gum Trees

Provenance: Private collection, Melb.

It is rare to find a group of high quality watercolours by S.T. Gill that have stayed together as a collection from their inception.

10. **Anon.** [*Men At Camp Site*], 1853. Iron gall ink and watercolour on two joined sheets of paper, dated and annotated centre right, 66 x 104.6cm. *Some paper loss due to oxidation caused by iron content in ink, chips and discolouration to edges, foxing overall.*

\$33,000

Annotation depicted on the tree trunk, reads "8 /GO / 29th December 1853."

It is extremely unusual to find mid 19th century artwork created from two large, joined sheets of paper; possibly the artist had access to such materials from draughtsmen or cartographers.

From our research the date on the tree trunk in this image and its subject may relate to a couple of events that took place at that time. The first event was the cessation of transportation to Tasmania as a penal colony on 29 December 1853. The second might relate to a family of eight children by the name of Reid who purchased land in Victoria on this date.

Laid down on acid-free paper.*

The pair **\$2,200**

These paintings depict two critical battles won by Horatio Nelson: Bonaparte at the Nile, and the Spanish at Cape St. Vincent.

Nelson's victories were still celebrated several decades after the event in many of the English colonies. This may have influenced Roberts in his choice of subject for these two watercolours, as he was mainly known for his landscapes of the eastern suburbs of Sydney in the 1860s. A body of his work is held in the State Library of NSW and the City of Sydney Library collections.

13. **S.T. Gill** (Brit./Aus., 1818-1880). *Bible Hall, Sydney*, 1861.
